# ecological cleaning products

EU Ecolabel accredited

# did you know... who is delphis eco?

## About us...

We are the leading British manufacturer of ecological cleaning products. We are the only UK company to exclusively produce environmentally friendly cleaning products for the commercial sector and the first to be awarded the EU Ecolabel.\* Headquartered in the UK, we also produce locally in South Africa.

Our range of professional products is ideal for all industries and works effectively across all sectors: house keeping, catering and washrooms. Our products are food prep safe, unique, innovative and at the forefront of technology. They are more powerful and safer than the multitude of chemicals currently available.

## Our vision: be green at every stage...

Our vision is to be the world's leading innovator of ecological cleaning products. We focus on every aspect of our cradle to cradle model to ensure the best solution with the least possible impact on the environment.

Our model is our guide to economic and environmental prosperity. It generates ecological, social, and economic value. Our products contribute to minimising waste, pollution, and natural resource depletion at every stage.

## our accreditation...

The EU Ecolabel is the premier European award for the manufacture of ecological products

## our awards...

## Benefits of using our cleaning products...

**Environmental:** Derived from plant based ingredients our products are wholly environmental, readily biodegradable and packaged in 100% recyclable packaging.

**Financial Savings:** 'Green' products are traditionally thought of as expensive. We offer a premium product without a premium price. In most cases, our professional advice saves money.

**Health and Safety:** Our aim is to reduce human and environmental risk. In many cases our products have significantly reduced risk ratings compared to the standard.

**Performance:** To be awarded the EU Ecolabel, our products must perform as well as or better than the five non-ecological market leaders in each class at least 85% of the time. We achieved a 92% success rate.

**Ease of use:** Our products are extremely easy to use and highly efficient. Using surfactant technology the cutting agents literally get underneath dirt and grime which is easily wiped clean.

## why we're No.1

- ✓ first in the UK to be awarded EU Ecolabel\*
- ✓ food prep safe
- ✓ reduced impact on aquatic life
- ✓ reduced use of hazardous substances
- ✓ made from sustainable resources

# our core products

## Concentrate or ready-to-use?

Our products are available in concentrate and ready-to-use. For detailed product descriptions, dilution guides and new products, please visit [www.delphiseco.com](http://www.delphiseco.com)

Buying in concentrate is extremely cost effective. Each 5ltr bottle of Multi Purpose Cleaner on average dilutes into 166 trigger bottles - an approximate cost of only 1.5 Rand per trigger bottle.

Re-using a trigger bottle time and again reduces packaging and shipping by removing the unnecessary transportation of water, which in turn reduces CO2 emissions. Most critically it reduces the amount of plastic potentially going into landfill.

## Dispensing charts and cleaning guides

Our products are extremely easy to use. To assist proper dosage and reduce costs we provide dispensing charts.

They can be created from our website and personalised with your company logo, downloaded and printed. In addition, to improve health and safety we supply cleaning guides and COSHH training manuals.

- ✓ dispensing guides
- ✓ cleaning guides
- ✓ info sheets
- ✓ safety data sheets
- ✓ COSHH training manual
- ✓ COSHH safety certificates

## what our customers say

### Iceland

"Delphis Eco products have proven to be effective, user friendly and also offered cost reductions. The EU Ecolabel accreditation was an added bonus." GNFR Buyer

### Sainsbury's

"I chose Delphis Eco as I needed a product I could trust. We now use fewer products to gain greater results. With the support of their professionals we were able to give training to our Team and ensure the products were used to their full potential. The EU Ecolabel was also a great selling point." Finance Manager, Haydock depot

### n u s

"Delphis Eco has provided us with a cost-effective, efficient range – it appears that green no longer has a premium when it comes to cleaning. We have also managed to gain Green Impact points for a simple switch to Delphis Eco."

National Union of Students - Manchester

"We have reduced the number of chemicals onsite thanks to Delphis Eco. It's amazing how one product, Delphis Eco Multi-Purpose Cleaner has so many applications."

National Union of Students - Bristol

### CUBITT HOUSE

"I was determined to get Delphis Echo into our kitchen because I wanted to use products that were environmentally friendly. We now spend less and use fewer chemicals per month since changing. It's a pleasure doing business with Delphis Eco." Senior Sous Chef, Cubitt House - members of the Sustainable Restaurant Association

### GREENZONE Cleaning & Support Services Ltd

"A cost effective, comprehensive range of products that deal with all of our requirements with independent accreditation. We would have no hesitation in recommending the range or the Delphis Eco team." CEO

### O&G OFFICE & GENERAL - CLEANING & SUPPORT SERVICES

"With Delphis Eco we can continue to push the boundaries of sustainability in commercial cleaning." CEO

## our community projects...

### The Eco Turtle Project

The aim of the project is to teach children about recycling measures and the water cycle. Pupils will see how everyday actions affect the planet.

\*at Ashley C of E School, Walton-on-Thames, Surrey

launching The Eco Turtle Project\*

### The Delphis Eco Garden

Our innercity community garden has been created to encourage our neighbours to grow their own food and where passersby can help themselves.

We hope other companies will make their garden spaces accessible and sustainable.

our community garden

### Start Exhibition at Lancaster House

Start is a national initiative by HRH The Prince of Wales to promote sustainable living. We were invited to Lancaster House to promote our policy to 'reduce, re-use and recycle'.

There we met King Sultan Mizan Zainal Abidin and Queen Nur Zahirah of Malaysia.
